

EMMANUEL TANTOLORUN OLATUNDE

Frontend Developer • "Elitz"

Lokoja, Nigeria (Open to Remote) | +234 906 688 2533 | olatundeemmanueldev@gmail.com

github.com/OlatundeEmmanuelTantolorun | Portfolio: elitz-portfolio.vercel.app

SUMMARY

Self-taught frontend developer specializing in React, Vite, and Tailwind CSS. Builds and ships production-ready web apps independently and in collaboration with backend developers, with experience across AI-integrated tools, client websites, and interactive browser applications. Actively seeking remote frontend / junior developer roles.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React, React Router, Tailwind CSS (v4), Vite, Framer Motion

Tools & Platforms: Git & GitHub, VS Code, Firebase, Vercel (incl. Serverless Functions)

APIs & Integrations: Groq API, TMDB API, Paystack, Web Crypto API

CLIENT PROJECTS

Kingdom Impact Network | *React 18, Vite, Tailwind CSS v4, React Router v6*

- Built a ministry platform for a client covering outreach, discipleship, widow support, and giving; deployed live on Vercel.
- Resolved Tailwind v4 custom-color incompatibilities by rebuilding the palette on built-in Tailwind colors.

Dr Tee Accessories | *React, Node/Express, Supabase, Paystack — collaborative build*

- Frontend developer on a multi-vendor ecommerce platform with product and food delivery sections, built alongside a backend developer.
- Implemented Paystack checkout and resolved Git merge conflicts across frontend/backend branches. Currently in progress.

Live: dr-tee-frontend.onrender.com | GitHub: Private repository (client project)

PERSONAL PROJECTS

Elitz AI Chat | *React 19, Vite, Tailwind CSS, Groq API, React Router*

- Built a ChatGPT-style AI chat app powered by the Groq API, with multi-chat management, persistent conversation history, and Markdown rendering with syntax-highlighted code.
- Delivers fast, focused conversations without the clutter of mainstream AI platforms, with API credentials protected via a Vercel serverless function.

Live: elitz-ai-chat-ashy.vercel.app | GitHub: github.com/OlatundeEmmanuelTantolorun/elitz-ai-chat

Focus Trainer | *React, Framer Motion, Context API, localStorage*

- Built a browser-based cognitive training game — type the word shown on a bouncing ball before the timer runs out, with progressively increasing difficulty.
- Tracks persistent player stats (scores, accuracy, WPM, streaks) with keyboard-aware mobile handling.

Live: eyefocus-trainer.netlify.app | GitHub: github.com/OlatundeEmmanuelTantolorun/Focus-Trainer-Game

Movie Engine — Movie Discovery Platform | *React, Vite, Tailwind CSS, TMDB API, Vercel Serverless Functions*

- Built a responsive movie discovery platform covering trending, popular, top-rated, now-playing, and upcoming titles via the TMDB API.
- Implemented search, detailed movie pages, trailers, and persistent favorites with client-side routing and reusable components.

Live: movie-room-psi.vercel.app | GitHub: github.com/OlatundeEmmanuelTantolorun/Movie-engine

Fortify | *React 19, Tailwind CSS, Framer Motion, zxcvbn, Web Crypto API*

- Built a privacy-first password strength analyzer with real-time strength, entropy, and crack-time analysis, entirely client-side.
- Combined entropy calculations with zxcvbn pattern detection into an explainable scoring system, plus cryptographically secure password generation.
